Local papers win editorial awards

The Times has won another two Premier awards in the Ontario Community Newspapers Association's (OCNA) 1989 editorial awards competition.

The Times won second place in the category of 'Best Editorial' for its June 5 commentary on the closed-door policy adopted by County Council in its deliberations on county reform.

The paper also took a third place in the 'Sports and Recreation' category for a July 24 story about Canadian barefoot waterskiing champion Karyn Cromwell.

It was a good year at the awards for newspapers throughout this area. The Haliburton Echo won three awards: a first in the category for 'Citizenship and Multiculturalism' and seconds in 'Heritage' and 'Environment'. The Echo also received an honourable mention in the category for Best Editorial.

The North Kawartha Times picked up two awards—a first in the category for 'Business and Finance' and a second for best editorial about the Ontario Junior Citizenship competition.

The Fenelon Falls Gazette took top honours in the category for 'Best Agricultural Story.'

PINNED

Todd Manser grimaces as he applies pressure on his opponents arm, seconds before pinning it to the table during the arm wrestling competitions in the Crowe's Nest Saturday. This was one of many competitions that went on throughout the weekend as part of one of the most eventful Kinsmen Winter Carnivals in several years. Other activities included a sno-pitch tournament, kids events, ice car racing and a snowmobile poker run. Although Manser won this battle, he was edged out later in a drawn out match against Terry Sicard. Watch next week's paper for more photos and coverage of the winter carnival.

Trustees bite back

by Jay Kerr-Wilson

The Haliburton County Board of Education is not pleased about public criticisms that it "unceremoniously booted" Sir Sandford Fleming College out of the Lakeview campus.

For the past several years the board has rented the college space in the Haliburton village building but recently informed the college's administration the space is now needed for school board accommodation.

The move was criticized as being unsupportive of the college's needs, but at last Tuesday's meeting trustees and the Director of Education defended the eviction, and the board's relationship with Sir Sandford Fleming College.

Trustee Tim Casey suggested some sort of public statement be issued explaining the board has not "unceremoniously booted Sir Sandford Fleming College out of the county."

Education Director Stuart Baker provided several examples of way the board supports the college. He said the Lakeview property has been rented to the college at a token price of one dollar a year, while at the same time the board has rented space back from the college, providing a source of revenue to the college.

The school board also provides much of the class space for the college's fine arts programs which are run in the summer, said Baker.

"If anyone can name to me any organization in the county that supports the college as much as this board, I would love to know about it," said Baker.

Wayne Wood asked if Dysart municipal council is so concerned about the college leaving the Lakeview campus, "why didn't they give the college a building?"

Craig Petit said the board's other

(more on page 12)

Lutterworth committees set to take on the issues

Better public participation in the decision-making process of Lutterworth Council will be had now that residents are sitting on two of the township's committees.

"You could see by the number of different things happening in the township that it's impossible for a council of five to do it all," Deputy Reeve Jim McMahon said in an interview Wednesday.

Council held an informal meeting the previous evening, when 13 Lutterworth residents were appointed to sit on the township's Economic Development and Environment Committees.

McMahon and Councillor Maurice Boyd said they were surprised and enthused about the level of interest the residents demonstrated by volunteering their time to work on the committees.

Until now, Boyd has been the sole member of the township's Economic Development Committee while McMahon headed up the one-man Environment Committee. Now, with this strong showing of interest from the residents there will be six people on the Economic Development Committee and eight on the Environment Committee.

Former township councillor Elizabeth Wright was appointed chairman of the Economic Development Committee at Tuesday's meeting. Helping her with the heavy workload will be Donna Lee, Derek Lowrey, John Lynch, Marge LeCraw and Boyd.

Members of the Environment Committee will include McMahon, Jim Johnston, Brendan Berube, Tom McAllister, Paul Pilon Jr., John Hulbig and Ed and Lorraine Evans.

McMahon said the response to council's invitation for people to join the committees was great. "These are enthused people, who really want to see the township grow," he said.

FIRE PROTECTION

According to Boyd, the first priority of the Economic Development Committee will be to have a hard look at fire protection in the township.

Lutterworth does not presently have its own fire department; instead it buys fire protection from three neighbouring municipalities. In recent years, costs for this service have gone up significantly, leading council to consider the feasibility

(more on page 9)

Economic push speeds environmental damage

VANCOUVER — The drive for endless economic growth is a direct cause of environmental destruction, yet all three major political parties adhere to the necessity of maintaining it.

That's why none of them has seriously addressed environmental problems. What is needed therefore, is a grassroots environmental movement so powerful, all of society will be transformed. There are signs that it is happening. Take three groups I've mentioned before.

Jeff Gibbs (102 W. 40th Ave., Vancouver, B.C. V5Y 2R2) has received over 300 letters from environmental groups in schools in all 10 provinces to join his Environmental Youth Alliance. The first EYA newspaper, which will come out Feb. 1, will be full of ideas and suggestions for youngsters.

On April 27-29, the Vancouver core of EYA members will hold a youth conference on the environment with sessions on politics, forests, recycling, etc. In March and April, there will be three four-day trips for students to Vancouver Island to visit Carmanah Valley with the tallest Sitka spruce in Canada. The trips and conference will serve as models of how to organize such events and will be the basis for the second newspaper in May so that student groups across Canada can organize their own events.

This youth movement is going to sweep the country and put a lot of pressure on adults. Listen to what students are thinking.

A grade 7 class in Ajax, Ont. wrote: "We'd like to know what will become of the world when we are adults. What will happen if nothing is done? How will we stop the carelessness?"

Vernon, B.C.: "So far we've raised about $70 in a bake sale and next Monday, a lady from our recycling depot is going to talk to us about sorting recyclables so we can get people volunteering at the depot. Did Nancy tell you about her idea of going to McDonalds and either bringing possibly CHBC and get all three high schools in Vernon involved."

Reflections

by Dr. David Suzuki

And from Concordia University in Montreal: "I formed along with some other students, a recycling committee to try to create awareness about the severe garbage problem. I will be attending a meeting with the mayor of Montreal and representatives from the Ministers of environments, communication and transportation to listen to what they have to say so I can return to school and reflect the meeting to my fellow students."

This is not a passing fad. These young activists are going to become more insistent and vocal in their demands. Interestingly, a majority of them are girls.

The Toronto city block that set out to clean up its act is now called Grassroots Albany (co Amanda McConnell, 211 Albany St., Toronto, Ont. M5R 3C7) and will soon have a logo. All participants have their own projects such as the bulk purchase, distribution and recycling of recycled computer paper.

The letter-writing campaign to politicians at all levels of government is going strong and their non-alcoholic monthly meetings are well and enthusiastically attended.

They can send you a kit they've prepared that tells you among other things, how to start a local group and how to lobby politicians. Sample letters are included. To date, they have sent out over 300 to people all across Canada.

The Worldwide Home Environmental Network (co Sue Cameron, 1910 27th St., West Vancouver, B.C. V7V 4L2) began with homemakers who realized that the environmental crisis comes from the way we all live. They have drawn up an 18-point mandate which

HELLO DRIFTER!

The newest feature of this year's Minden Sled Dog Derby was our race mascot DRIFTER. The full size costume was hand-crafted by Senitt Puppets of Carnarvon under the direction of Catherine Senitt.

Thanks to Senitt Puppets for the donation of the costume and to Paul Gauntley who brought Drifter to life this year.

Another great winter carnival

The Minden Kinsmen and everyone involved in this year's winter carnival deserve a pat on the back for sparking new life into this event, making it the best carnival in recent years.

Poor weather and a tired schedule of events for the previous two years saw the level of enthusiasm for the winter carnival fizzle. This was not the case this weekend. The weather was perfect on both Saturday and Sunday and there was certainly no shortage of activities for the hundreds of people who came out to have a good time.

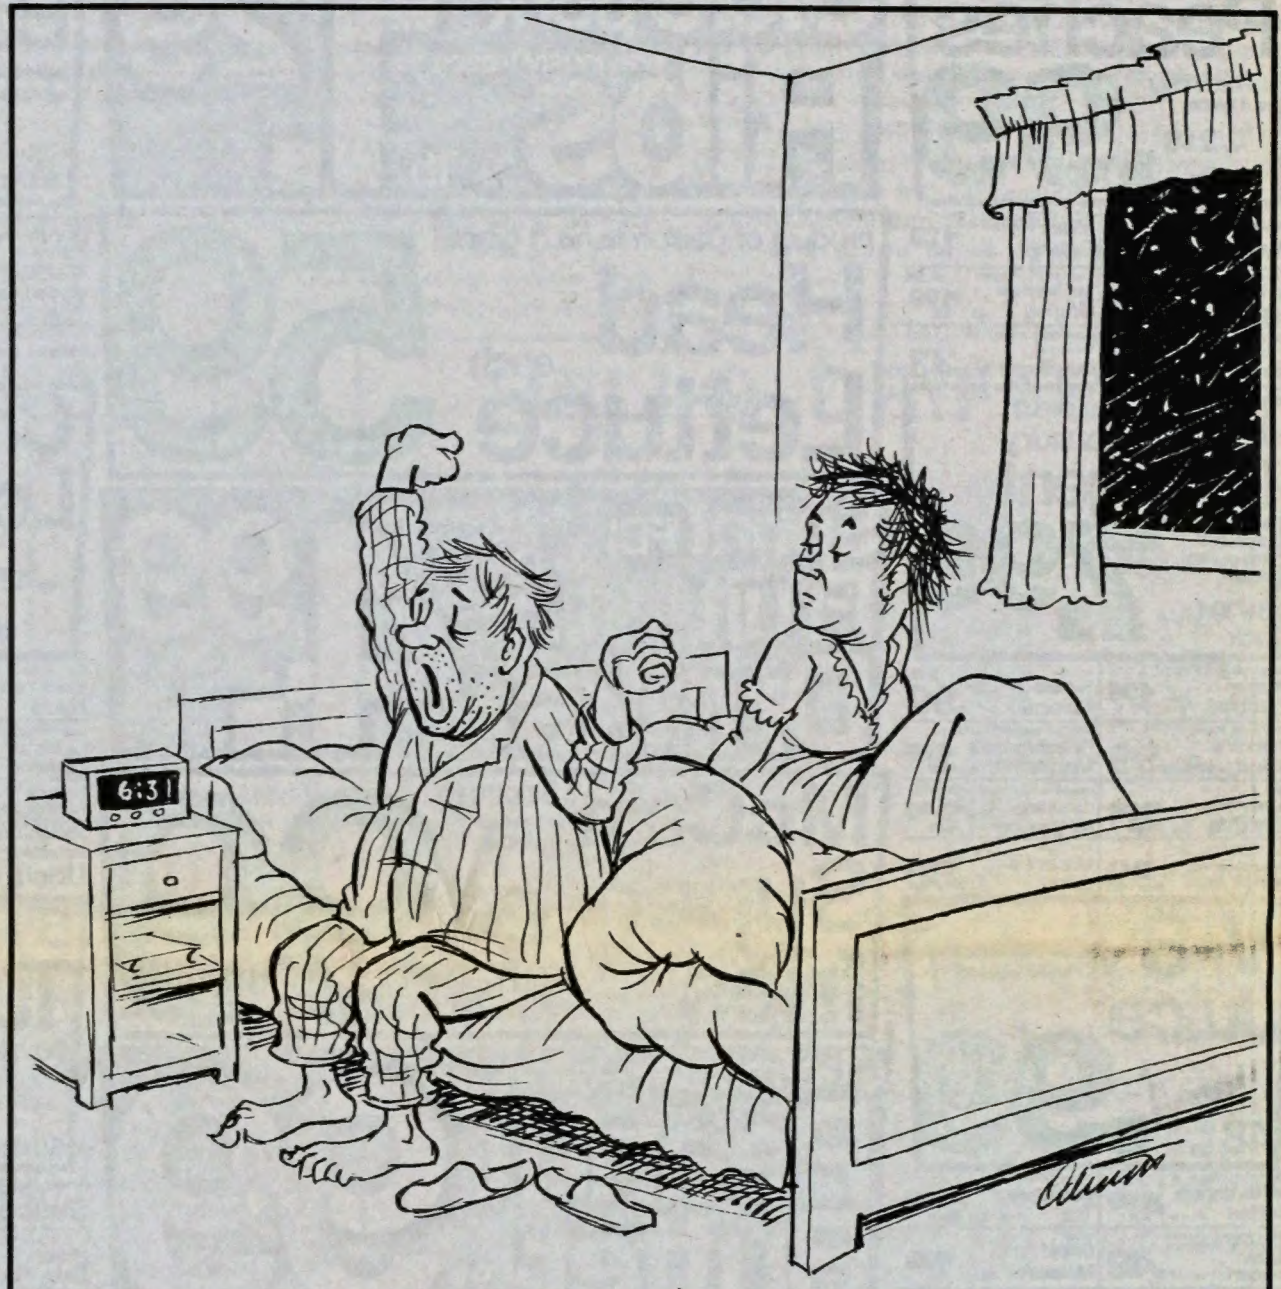
The revival of the sno-pitch (winter baseball) tournament played a big part in revitalizing the carnival, with almost 200 people slipping and sliding around the snow-covered diamonds.

But this wasn't the only event that made the weekend a success. The traditional events-curling, ice car racing, arm wrestling, fishing, minor hockey, and dancing—provided non-stop entertainment.

Of special note were the children's activities. The Kinsmen and Kinettes provided the dozens of youngsters with a wide variety of games and activities Saturday afternoon at the tennis courts, allowing the kids to have as much fun as the adults.

Of course, no Minden winter carnival would be complete without Norm Mills and the ongoing auctions in the Crowe's Nest. Nor would it be complete without the pancake breakfast put on by the Anglican Church or the delicious beef on a bun served up by the Minden Agricultural Society.

The success of this year's carnival is a promising indication that this winter activity will continue to grow and increase in popularity in years to come.



"THIS IS ONE MORNING I REALLY LOOK FORWARD TO GOING TO BED TONIGHT."

Growing together and apart

Black 'n White

by Arthur Black

There were two stories that caught my eye in the newspaper a few weeks ago. They were both about the future of this country and they both bummed me out.

The first story was headlined:

Canada Part of U.S. by 2000
Says Hot-Selling American Book

The prediction comes from a book called *American Renaissance: Our Life At The Turn of The 21st Century*. It says that thanks to the formation of international trading blocs, Canada is destined to become a slice of the American pie before the turn of the century.

How will it work? Well, the author, Marvin Cetron, predicts that the province of Ontario will be born again as the 51st American state. Newfoundland and the Maritimes will be blanket stitched together to form the 52nd, and British Columbia, Alberta, Manitoba, the Yukon and Northwest Territories will be mashed up into two geographical snowballs to make the 53rd and 54th states.

Some snowballs.

Author Cetron, by the way, is no hashish-sucking Big Sur star-gazing mystic. He's a three-piece, bottom-line Yankee businessman. He's also president of Forecasting International, an American think tank that counts the White House and the Pentagon among its clientele.

But I mentioned two depressing news stories didn't I? Yes, well the other one bears a Quebec City dateline and runs under this headline:

Why Not Two Countries?
Quebec, Canada Growing Apart

(Quebec and Canada growing apart??? Obviously of the headline writer, separation is already a fait accompli.)

The source of this second newspaper story is Jacques Parizeau, leader of the Parti Quebecois, who was speaking in the Quebec legislature recently. The gist of his argument: that Quebec and the rest of Canada have so little in common anymore that it only makes sense to file for divorce.

"Culturally, politically and economically," said Parizeau, "we are looking at two societies that are grown apart. The obvious question, in conclusion, is:

(more on page 5)

Opinion

The Times welcomes signed letters to the editor on subjects of interest to our readers. Short letters are most likely to be chosen for publication, but the use of any material is at the discretion of the editor. The editor reserves the right to edit letters to meet space requirements, for clarity or to avoid obscenity, libel or invasion of privacy

Upon request, names may be withheld, but only very rarely and for compelling reasons. Letters published do not necessarily reflect the editorial policies or beliefs of this newspaper. All letters must bear the handwritten signature of the writer and include the address and phone number for verification purposes.

Simple arithmetic says decade ends at close of 2000

Editor:

Susan Wilson errs, as does Ted Jones. Decade-, century- and millennium counting is not a "vexing question" that needs to be "hotly debated", it is simple arithmetic. So simple, in fact, that a 10-year-old child is just as likely to understand it as an 80-year-old University of Toronto professor who, I suspect, is deliberately spouting blarney!

Professor Jones' odd concept of himself as a "zero-year-old" during his first year of life leads to his first tongue-in-cheek (?) boobo: designating the Christian Era's first year as "Zero AD." Here it becomes obvious to everyone but Wilson that the old professor is jossing us. There was NO AD Zero! The counting went direct from one BC to AD one, and the transition (midnight, Dec. 31- Jan. 1) may be considered a zero POINT--vastly different from a zero YEAR! If one asks a proud mother: "How old is your child?" does she reply: "Zero!" Of course not--the answer is "Five days", or "Three weeks", or "Two months", all fractions of a year, the first year of the baby's life and, therefore, Year One--NOT Year Zero!

Instead of Jones' digital clock, imagine a time meter with four dials, each with ten graduations. The first dial records years, the second decades, the third centuries, and the fourth millennia. As the Christian Era begins, all four dials read zero. After one year, Dial One reads one, the others zero. After 10 years, Dial one is back to zero and Dial Two reads one, recording one decade, ending December 31, AD 10. After 100 years, the first two dials are at zero and Dial Three reads 1, recording one century, ending December 31, AD 100. After 1,000 years, the first three dials are at zero and Dial Four reads 1, recording one millenium, ending December 31, AD 1000. One thousand year later, Dial Four is at two, recording two millenia, ending December 31, AD 2000, which means that the third millennium begins January 1, 2001 and NOT (as Professor Jones and his starry-eyed supporter insist) January 1, 2000!

The length of our year is in the order of 216 seconds shorter than 365 1/4 days. We correct for the quarter day by adding a little too much time: one day every four years. By then, the surplus has grown to 864 seconds, or more than 14 minutes. After 100 "leap" years, the discrepancy is 86,400 seconds, or one day, and we correct for this by making every 400th year a non-leap year. Thus

(more on page 11)

A chatty companion. **Russ Duhaime photo**

Musher loved derby

Editor:

I would like to congratulate the people of Minden on a very successful dog sled race which I had the pleasure to participate in on the weekend. It is only with the help and support of so many businesses and volunteers that an event of this size can go so smoothly.

I have raced all over North America and this race is among the very best I have attended. I would also like to thank Steve and Val Lougheed for letting me stay with them during the race. A special thanks to Martins Pet Foods for sponsoring the race and sponsoring my team.

I am looking forward to joining you in 1991.

Terry Streeper
Fort Nelson, B.C.

Good support

Editor:

I would like to congratulate the people of Stanhope Township for standing behind their fire victim family of December 23, 1989.

It is too bad Minden doesn't show the same support and community spirit.

Pennay Dennison Hewitt,
Tottenham.

Canada marching into statehood

(from page 4)

'Why not two countries?"

I daresay there are a lot of non-Quebecois Canadians who would agree with Parizeau. They're fed up with Quebec. Sick of her whining and bitching. More than happy to help her pack, and put her on the front porch with bus fare and a heartfelt 'bon voyage!"

But think about it for a moment.

Sure, she's a pain in the butt sometimes...but what if she goes? What if Quebec does separate?

How are we going to tell Canada from the U.S. then?

By hockey superiority? Our best player lives in Los Angeles. Sixteen of the 21 teams in the 'National' Hockey League represent cities outside English Canada.

So how else will we be able to tell Canadians from Americans? By our fondness for earmuffs? By our propensity for saying 'oot' and 'aboot' instead of 'a-owt' and 'a-baowt'?

Not a very solid foundation for a national identity.

There are two major political realities facing Canada right now. One is the Meech Lake Accord, the other is the Free Trade Agreement. The Meech Lake Accord will transfer power from Ottawa to the provinces — transforming Canada from a single, sturdy apple tree to ten little apples lying on the ground.

Ripe for the plucking.

Parizeau believes our country is doomed because of irreconcilable differences. Marvin Cetron thinks its doomed because of Ottawa's back-door carnal liason with the Big Guy From Down South.

"Our (the U.S. and Canadian) economies,-peoples and cultures have become indistinguishable" says Cetron. "Once the free trade agreement takes full effect, the next logical step will be to accept politically what has already happened economically — the integration of Canada into the U.S."

Hmmm. The tories didn't give us a chance to vote on Free Trade. Do you think we'll get to cast a ballot on statehood?

Sherborne trustee resigns

by Jay Kerr-Wilson

Ed de Grosbois has resigned as Sherborne's trustee on the Haliburton Board of Education.

In a letter to the board, de Grosbois said he has accepted a promotion within the Ontario Ministry of the Environment and is being transferred to Toronto in the immediate future.

"It has certainly been a privilege and a tremendous learning experience to have worked with you in the pursuit of better education—building stronger individuals and stronger rural communities in Haliburton County," de Grosbois said in his letter of resignation. "I wish you all well."

Sherborne's seat on the board wasn't left vacant for very long, though. Immediately following the acceptance of de Grosbois' resignation, the trustees appointed Dorset resident John Munro to the position.

Munro's appointment was recommended by de Grosbois who approached Munro about taking his place. Because de Grosbois was acclaimed in the last election, there was no other candidates to be offered the job. Sherborne municipal council sent a letter to the board of education supporting the choice of Munro as de Grosbois' replacement.

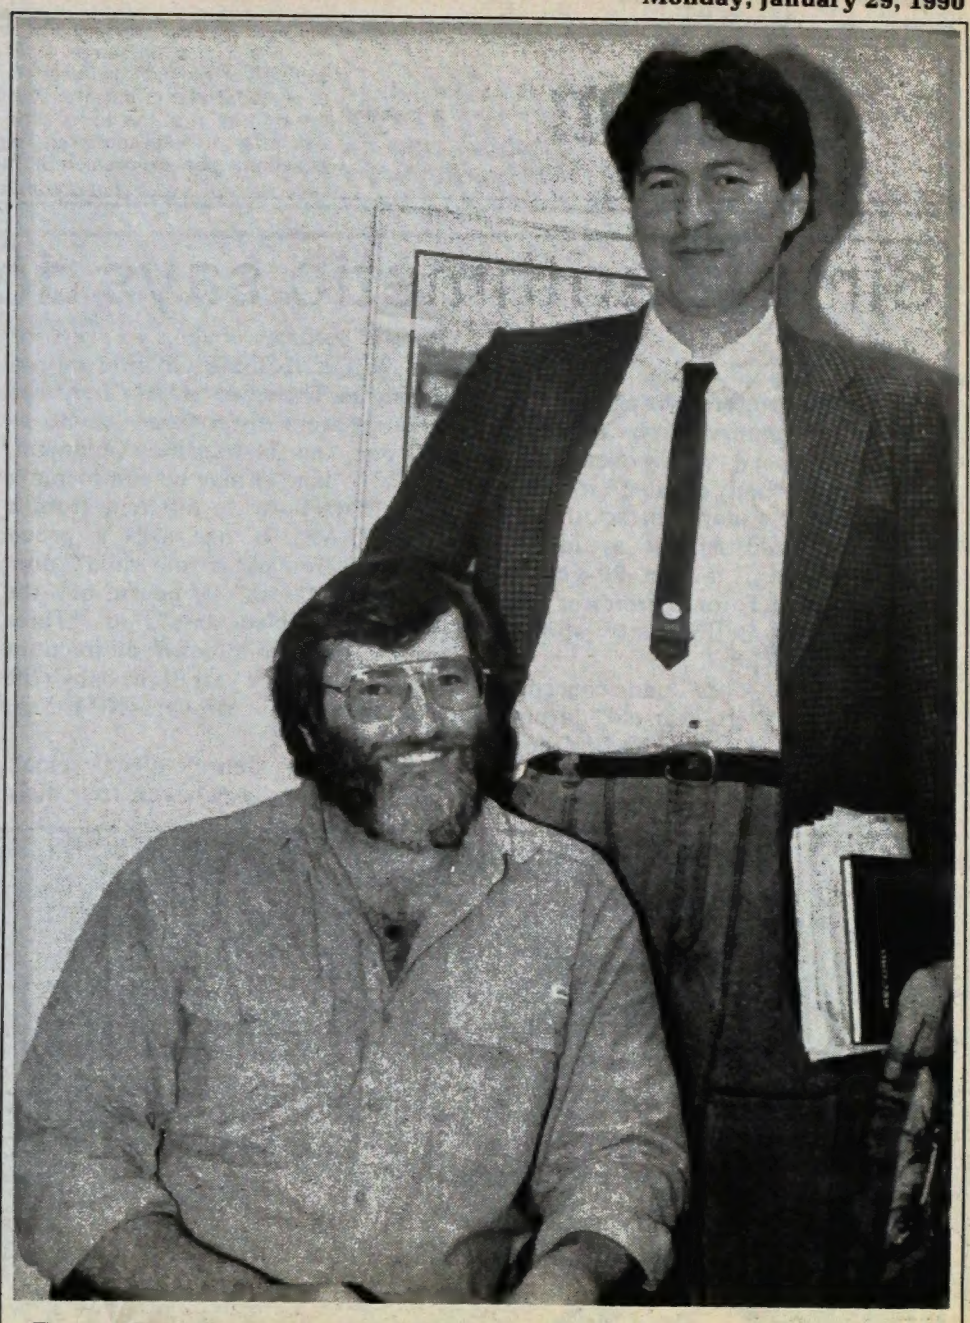
Munro is also an employee of the Ministry of the Environment and told *The Times* in an interview last Thursday that he has been involved in the community in different capacities for the past five years.

When the Dorset School was named as a candidate for closure four years ago, Munro worked on the committee that was formed to keep the school open, an effort that was successful.

As well, Munro has served on the Community Centre Board and the board of the local day care program.

He says he has agreed to serve on the board because he feels there will be a lot of important education issues for small rural communities, like Dorset, in the 1990's. "We have to have a voice on the school board, and I'd like to be that voice," says Munro.

One of the most important issues that Munro says the board will be faced with is the cost of providing education. There are a lot of costs involved in education in rural areas and Munro says it's important for the board to keep these costs under control.



Former Sherborne trustee Ed de Grosbois hands his seat over to John Munro.

Minden Reeve resigns from two township committees

Minden's Reeve has resigned from the Planning Advisory Committee and the Industrial Committee effective immediately.

Ray Moore tendered his resignation at last Thursday's council meeting, citing an increase in county duties as the reason for the move.

"Due to my involvement on the County Planning, Restructuring, Economic Development and County Roads Committees, I feel it is necessary for me to relinquish my positions as an active member on the Anson, Hindon and Minden's Planning Advisory Committee and the Industrial Committee," Moore says in a letter to council.

However, Moore has not ruled out his involvement in either of these committees. "I will, however, attend meetings to inform committees of developments taking place, as an ex-officio, when time permits."

Moore left Friday morning for a month-long vacation and was unavailable for further comment.

Haliburton school board addresses field trip concerns

by Jay Kerr-Wilson

Although the Haliburton County Board of Education still has concerns about the cost and frequency of some school field trips, it was agreed at last Tuesday's meeting that stricter controls won't be imposed until principals have chance to deal with concerns.

The trustees made the decision after considering a review of the board's field trip policy which was conducted by the Administrative Council.

The council consists of the school principals, the Superintendent of Education and the Director of Education.

The review said principals and teachers are sensitive to the concerns of the trustees that out-of-class experiences need to be educationally valuable without taking too much time away from in-class studies.

As a means of addressing these concerns, it was recommended that a rationale for each trip be written, outlining the educational value to the students.

The Administrative Council also addressed a common concern about the costs of the trip to the students' families. They agreed the costs must be reasonable.

"Additional controls have been considered but seem to take away from the creativity to provide unique experiences specific to individual classrooms," the review said.

The trustees discussed the review and its recommendations. Cheryl Murdoch said she was concerned about the frequency of bus trips for certain grades. She said it seems that in some grades the children don't go on many trips, while in other years they go on several.

Murdoch also expressed concern about the time field trips take away from classroom work.

Ed de Grosbois suggested a directory could be set up which reviews all existing field trips and evaluates which are appropriate and what number of trips per class is appropriate.

Wally Bunn said that with larger class sizes, each student is already getting less one-on-one contact with the teacher, and time spent out of the classroom on trips means a further reduction in the quality of classroom instruction.

However, Tim Casey said trustees have to balance the loss of classroom time against what the students are learning on the trip. Although "a steady diet of trips is no good," Casey said students do come away from trips with some benefits.

"It's a balancing act," said Murdoch. "You go too far one way and you've got a problem."

Another concern of the trustees is that certain trips seem to be repeated year after year. Murdoch said some kids end up going to

(more on page 8)

ANNUAL REPORT of THE MINDEN HOSPITAL BUILDING FUND

The Minden Hospital Building Fund was established by the Rotary Club of Minden in 1988 to provide a mechanism for those wishing to set aside funds for the replacement of the present Minden Hospital. All monies contributed to the fund are placed in a special account. The rules governing this account allow for the money to be withdrawn only to assist in the replacement of the present hospital.

The Rotary Club of Minden has agreed to underwrite the cost of operating this special fund and ensure ongoing management of the dollars entrusted to the fund. Seven trustees, four Rotarians and three members of the community have been appointed to over-see the management of this money.

An application has been made to register this fund so that contributions to it will be tax-deductible. A lawyer is continuing to work on this application. Once this registration is approved, proper receipts and formalized procedures for the continuation of the fund will be in place.

Over the past year, a number of donations have been made to this fund, including many in memory of individuals who have died, by clubs, organizations and citizens at large. Since, at the moment there is no immediate plan for the replacement of the Minden Hospital, there is no active campaign to solicit funds. However, anyone wishing to make a donation to be used in the future for the construction of a new Minden Hospital, may do so to this fund and be assured the money will be held in trust until such time.

In establishing this fund, it was decided that an annual report should be made to the community on its status. The following report has been approved by the committee over-seeing the fund: Rotarians - Russ Paul, President, Cec Rowe, Treasurer, Jack Brezina and Paul Heffer; and community representatives Dr. Steve Dawson, Gord Monk and Andy Poldaas.

Questions regarding this fund should be directed to the address listed below. (Space for this announcement was donated by *THE TIMES*).

This report covers the period from October 25, 1988 (when the fund was created) to December 31, 1989.

Memorial donations to the fund have been made in the names of the following individuals: Charles Brandon; Mary Casey; Jean Colliver; George Davidson; Joe Dollo; Mrs. Donaldson; Garth Gammon; Melissa Hampson; Eric Lewis; Anna Milewski; Mary Roberts; Ev Rudd; Elgin Sedgewick; and Terry Spooner.

The following substantial donations have been made by area clubs and organizations:

— Royal Canadian Legion, Branch 636 (Minden)
— Kawartha Dairy Barn Dance
— Proceeds from a draw for a quilt stitched by Bea Taylor
— Lioness Club of Minden
— Minden Women's Institute
— Ladies Orange Lodge Benevolent Association
— Clubs and organizations have also made substantial memorial donations.

AMOUNT HELD IN TRUST

As of December 31, 1989, The Minden Hospital Building Fund includes $15,533.26.
Of that total, $338.26 was earned as interest as of October 31, 1989.
Total contributions as of December 31, 1989, $15,195.00.

For more information about this report and the Minden Hospital Building Fund, write: Box 504, Minden, Ontario, K0M 2K0.

Spare the rod: Haliburton's school board trustees finally ban the use of the strap as a means of discipline

by Jay Kerr-Wilson

Corporal punishment can no longer be used in Haliburton County schools.

At last Tuesday's meeting, trustees voted to remove the policy which allowed strapping from the board of education's policy book.

The trustees removed the policy on the recommendation of the Administrative Council, which has reviewed several board policies.

The council found that "use of corporal punishment in the schools in Haliburton County has gradually decreased over the last number of years as staffs have attempted to follow Ministry (of Education) policy by managing behaviour through counselling, parental contact or suspensions from school.

"At the present time the use of corporal punishment is not supported by the Ministry of Education or any of the teachers' federations," read a written summary of the council's review.

The strapping policy, which has been in the books since the 1960's, allowed the principal of a school to "administer the strap" to a student as a means of discipline.

When considering the council's recommendation to disallow strapping, trustee Linda Mumford said she believes if "you spare the rod, you spoil the child," but added that she feels corporal punishment should be used in the home. "It may be obsolete at school but not at home," Mumford said.

Education Director Stuart Baker said although actual incidences of strapping have become rare, the threat of corporal punishment has been used as a means of discipline.

Baker said good discipline could still be maintained in the schools through other methods, but said by dropping the policy trustees would be "taking away what has traditionally been one of the control methods.

"You will not be able to maintain discipline as effectively as you could at one time," said Baker. He described strapping as "a very quick solution that had an effect on more than just the child being punished."

But because the threat of corporal punishment has rarely been carried out in recent years, Baker said very few students today would think the strap would ever be used. He also mentioned that some studies have suggested students who receive physical punishment exhibit abusive behavior towards other people.

"No adult is physically punished no matter how hienous the crime they commit," said Baker. He said children are the only members of society who still receive corporal punishment.

All the trustess voted to remove the strapping policy except Minden's Mary Anne Wilson, who opposed the move.

Field trips to be well planned, relate to curriculum

(from page 7)

the Science Centre in four different grades. Bunn said his kids are "sick of Wanakita."

"One way to solve it is no trips at all," said Wayne Wood, "or one trip per school, per year."

Education Director Stuart Baker told the trustees that the school's principals realize the need for improved communication of the educational value of the trips. He also said principals will do an in-service session with the teachers to ensure that proposed field trips are well thought through and tied to the class curriculum.

On the backs of the permission forms sent home to parents for field trips will be an explanation of the rationale and educational value, said Baker.

Trustee Mary Anne Wilson cautioned the trustees against too much negative feedback on field trips. She suggested a positve approach where the board would support certain field trips and offer to pay part of the cost.

As examples Wilson said the board may help pay for an overnight trip of "clearly defined educational value" for the Grade 7 classes or support a request by teachers to send all Grade 6 students to the Sunship Earth program at Camp Wanakita.

But Wendy Ladurantaye warned trustees not to constrict teachers and principals by supporting only certain trips. She said teachers should be able to take students on field trips relating to a special area of interest of that class.

Chairman Len Salvatori said there has to be some logic to the board's approach to field trips which would allow the trustees to be flexible without having the policy be taken advantage of.

The trustees decided not to impose any more controls on field trips and to let the principals administer the policy, keeping in mind the concerns of cost and educational value.

Priorities are fire protection, Gypsy Moths

Lutterwoth is encouraging public participation by having residents sit on committees

(from page 1)

of establishing its own fire department.

The committee as a whole will decide what direction to take on this matter, said Boyd. He said it is very important to get input from the community and this is why council wants residents involved on the committee.

The establishment of an industrial park in Lutterworth Township is already well in the works and having a fire department in the township would make the lots that much more attractive, said Boyd. Whether or not a locally-controlled fire department will come to be, though, will a decision for the whole committee after weighing all the pros and cons.

The development of the industrial park on Highway 121 is another matter that might ultimately fall on the shoulders of this committee. However, Boyd, who has been overseeing the progress of this property, says it's still too early in the process for the committee to get involved.

He said he is still trying to get an idea of what it will cost to develop the industrial property. Until that is done and council decides whether it is willing to to go ahead with the project, the committee will not be involved.

ENVIRONMENT

The Environment Committee will be split into two subcommittees one to look specifically at waste management and the other to deal with issues that fall under the broad umbrella of environmental concerns.

The top priority of the members who will sit on the latter subcommittee will be this spring's Gypsy Moth spray program, said McMahon.

A surprising number of Gypsy Moths were discovered devouring the foliage from trees on Gull Lake this summer, and Haliburton County Council has since been working to ensure some measures are taken to control the infestations this spring. McMahon said this new committee will be working along with the County to help people become more aware of the potential damage these insects can inflict.

Unless something is done, McMahon has no doubt Gypsy Moths will spread throughout the township, and eventually throughout the county. There will be a spray program launched this spring, but McMahon says future success in controlling the damage done by Gypsy Moths hinges on two factors: the level of acceptance from local residents and continued support from the Ministry of Natural Resources.

People have to be made aware of the importance of this spray program, said McMahon. He said there is bound to be people who will be reluctant to have an insecticide sprayed over their property. "But if they're aware of the damage these little critters can do, they're bound to change their minds."

Haliburton is fortunate that the problem was identified in the early stages, said McMahon. Gull Lake resident Lou Cataford alerted County Council to the problem late last summer when he found the insects defoliating all the trees on his property. The county then took immediate steps to see that a spray program could be launched this spring.

"By getting a spray program in place by early spring, we'll have some impact on their spread," said McMahon. However, he says there will have to be full participation from everyone in the area to make the spraying effective, he said. If a few of the property owners are unwilling to allow spraying of their lands, the Gypsy Moths on their property will survive and spread to neighbouring properties, he said.

"It has to be a community effort or it won't work," McMahon said. People have to be educated about the potential damage that will result if Gypsy Moths are allowed to spread unchecked.

The Ministry of Natural Resources must also be convinced to extend its support for the control of Gypsy Moths beyond 1991, said Lutterworth's Deputy Reeve. For several years the ministry has provided funding to counties engaged in battle with this destructive insect. However, this program is scheduled to wrap up at the end of 1991.

County Council has already petitioned the province to have the program extended, and McMahon wants Lutterworth's new committee to keep up the pressure until the province agrees to do so.

Another shortcoming in the ministry's program is its mandate to protect prime timber stands. The forests in Lutterworth Township have limited timber value, but McMahon says they are vitally important to the area's tourism economy.

The ministry should be encouraged to broaden the spray program's mandate to include tourist areas, McMahon believes. If most of the trees in this area are killed off by a relentless attack from Gypsy Moths, the value of property will drop, as will the number of visitors who come to the Highlands each year.

Pressure must also be brought to bear on the ministry to spray infested areas of Crown land, said McMahon. About half the county is occupied by Crown land, and unless the population of Gypsy Moths is kept in check there, the highly-mobile insects will continue to spread throughout the Highlands.

Committee will address new landfill guidelines

(from page 9)

The second subcommittee of Lutterworth's new Environment Committee will also have its hands full over the next few years dealing with the Ministry of Environment's tightening of regulations regarding landfill sites.

With increasing awareness of environmental concerns, the ministry has begun enforcing its regulations regarding the landfill sites in recent years. Municipalities throughout the Highlands have responded to these demands by fencing off their dumps and restricting access to set hours.

Although these moves meet with the ministry's approval, McMahon says there are other ministry regulations that will be much more difficult to adhere to.

As an example, the ministry has stated that items such as used batteries, propane cylinders and aerosol cans should not go into landfill sites, said McMahon. However, he says the ministry has no answers when asked what should be done with these discarded items.

McMahon also notes the ministry is asking that studies be done to trace the flow of leachate from landfill sites—and there is still some confusion about where development should be allowed on lands adjacent to landfill sites.

These are just a few of the issues this committee will be asked to address, said McMahon.

"It's going to be a busy year, but an exciting one with the response from local residents."

Involvement builds overpowering force

(from page 2)

describes the kind of changes we can all make (e.g. meatless meals, recycling, conservation, use of organically grown food).

WHEN members give talks on how to reduce garbage, waste and consumption to groups across the province. They target schools, talking first to children and then hitting their parents in the evening after the kids have softened them up.

Citizens groups are popping up all over the country and as they form networks to share ideas and information, they will be forced to be reckoned. People who have been involved in environmental issues for years are happy to share their knowledge. You can get a list of environmental groups from the Canadian Environmental Network in the federal Environmental ministry or provincial groups from each provincial Environmental Network.

Involvement is empowering so choose a group and jump in.

10.9% NO LIMIT FINANCING UP TO 48 MONTHS

NOW LEASE A NEW 1990 PONTIAC SUNBIRD OR CHEVY CAVALIER FROM $295 PER MONTH WITH NO DOWN PAYMENT"

OR MAKE NO DOWN PAYMENT, NO MONTHLY PAYMENTS & PAY NO INTEREST FOR 90 DAYS

CORSICA • TEMPEST • BERETTA • CAVALIER • SUNBIRD • SPRINT • FIREFLY • CHEVY & GMC S/T COMPACT PICKUPS AND COMPACT JIMMY/BLAZER

At the rate your GM Dealer is going, 1990 promises to be the best year ever for new car buyers. And what better way to start it off than with your choice of two no-nonsense offers designed to give you the most car or truck for your money. See your local GM Dealer today – he's got your best interest at heart.

Your GM Dealer's right here for you

CHEVROLET • PONTIAC • OLDSMOBILE • BUICK • CADILLAC • CHEVY & GMC TRUCKS

†These offers may not be combined.
1) 10.9% financing offer with no limit on the amount financed available only to qualified retail buyers financing their purchase through GMAC on a standard 12 month finance contract. Example: $15,000 financed 48 months at 10.9% A.P.R., monthly payment is $386.95. Cost of borrowing is $3,573.60.
Assuming a 90 day no interest benefit to the alternative, legislation requires that the value of the 90 day no interest benefit be included in the cost of borrowing example or refer to or have an effective interest rate. In the example given, the value of the no interest benefit is $600 (based on the illustrative GMAC retail banking rate of 16% A.P.R.) the effective interest rate would be 12.6%, and the total cost of borrowing including the 90 day no interest benefit not taken, would be $4,173.60.
2) Or choose to make no payments for 90 days from date of delivery. Standard Motors of Canada Ltd. will pay all interest for 90 days. Offer available only to qualified retail buyers financing their purchase through GMAC on regular 12 month financing contract at current GMAC interest rates. Example: 48 month contract, cost of borrowing for 90 days = 0.
$10,000 financed 48 months at 16.50% A.P.R., monthly payment is $249.51. Cost of borrowing is $3,196.48.

Offers available on new and unused or demonstrator 1990, 1989, and prior year models of Chevy Sprint, Pontiac Firefly, Chevy Cavalier, Pontiac Sunbird, Chevy Camaro, Pontiac Trans Sport, Chevy Beretta, and Chevy or GMC S/T compact pickup trucks and compact S/T Jimmy/Blazer purchased from dealer inventory. Offers valid for a limited time starting January 6, 1990 to close of business February 2, 1990.
Some models may not be immediately available from dealer stock. Final orders are ineligible for these offers. The buyer will be responsible for the payment of applicable taxes, including federal sales tax, licences and registration, freight charges at the time of the transaction. GMAC may require a down payment should the buyer's credit not meet its standards.
All credit applications will be subject to approval by GMAC. Offer excludes Dealer and Dealer Associate car purchases.
††Based on all month SmartLease™ and a suggested retail price of $12,700 to qualified retail buyers. Lease rate in effect for vehicles delivered from January 6th to February 2nd, 1990. GMAC may require a down payment should the buyer's credit not meet its standards. Security deposit may be required. Some mileage restrictions may apply. 24 and 36 month plans also available. Freight charges, registration, licences, and applicable taxes not included. See your participating Dealer for freight charges. Dealer may lease for less. Ask your participating GM Dealer for details about similar maintenance savings on other selected models with SmartLease™.

Ministry reviews fire system

A review of the Ministry of Natural Resources fire crew system found that instituting a flexible system in 1989, with a core unit of three-member fire crews, has been effective, but there may also be a need for four-member crews in some areas.

In all, the review makes eight recommendations. In addition to the suggestion on crew configurations, the report recommends examining the optimum mix of fire resources for the province, looking into the feasibility of restoring funds removed in 1989, providing native awareness training in regular fire training programs, strengthening the role of the auxiliary firefighter, enhancing the basic training system, developing a better definition of the role of the fire crew leader and strengthening internal and external communications on changes to the fire system.

"The review has presented me with a range of recommendations for our forest firefighting efforts for the coming season," Natural Resources Minister Lyn McLeod said. "I have received the report and will be studying its findings and recommendations before making any decisions."

The review outlines several options on crew size. The ministry changed its fire crew system to a flexible system with a core unit of three-member crews from the fixed five-member configuration at the beginning of the last fire season. At the time, the Fire Crew Stragety Implementation Report 1989 identified the need for a review at the end of the season of the effectiveness and efficiency of crew restructuring.

"The change in the fire crew system was one step toward a more balanced fire suppression strategy," said McLeod. "It reflected advancements in other areas such as waterbombing, decision support and fire intelligence."

The flexible crew system, with three-member crews as the core unit, was chosen in an effort to increase efficiency and to improve ability to react to fires quickly. In the process, the ministry increased the number of initial attack crews to 207 from 170, while the number of firefighters was reduced to 621 from 850.

The review indicates that while there were some implementation problems, the change to smaller crews was effective in preventing a project fire. A project fire is one that requires a substantial commitment of fire crews and equipment.

Despite the fact there was a high incidence of fire starts and fire conditions were extreme during much of the season, the Ontario fire control system proved effective in keeping losses of prime forest areas to less than 10,000 hectares.

A related review is currently under way on health and safety aspects of firefighting. A task force of representatives from MNR and the Ontario Public Service Employees Union is expected to report by January 31, 1990 to the director of Aviation and Fire Management.

Stickland rebuts prof's 'rambling gobbledygook'

(from page 5)

when a century-ending year is divisible by 400 (such as AD 1200, 1600, or 2000), it is NOT a leap year, and--would you believe it--dear old Ted is WRONG AGAIN!

I don't blame Wilson for not understanding my letter of December 23. The editor considered it of secondary importance; two paragraphs were cut out and so badly garbled as to render them incomprehensible. What I do blame Wilson for is blatant misrepresentation: she claims her "instinct" told her I was wrong in my "judgement" that the next decade is still a year away (which, of course, it is). But Wilson's "instinct" turns out to be the rambling gobbledygook of a former professor at U of T's applied science and engineering faculty! The inference is obvious: only those with letters after their names have brains enough to understand such complicated issues and explain same to lesser mortals. This is as offensive to me as I'm sure it would be to Wilson were I to imply she can't understand me because she's a woman!

Three more Wilson goofs: 1) I made no "judgement", but simply stated facts verifiable in any library; 2) she insists *The Times* is correct in stating the next decade this year, apparently unaware that the paper has already admitted its error; 3) there is no such thing as a "temporal watershed", a watershed being a "water parting" from which water flows in more than one direction--Time, alas, does not!

Happy new year!

Pete Stickland,
Harcourt.

PRIZE PICKEREL

Minden resident Paul Sisson has the proof there are still big ones to be caught in local lakes. He caught this lunker several weekends ago in Lake Kashagawigamog. The pickerel weighed in at eleven and a half pounds.

School board supports local college campus

(from page 1)

option was to leave the college in the building and raise taxes to finance new accommodation.

As of September, the two rooms which have been used by the college will be used for elementary classrooms. The eviction is part of the board's new long- and short-term plans for dealing with a growing accommodation crisis.

The board is faced with a shortage of space for elementary students in both Haliburton and Minden villages. Options for dealing with the situation include building two new buildings, one on the Archie Stouffer site in Minden and one at the J.D. Hodgson site in Haliburton, or building one new complete elementary school which would take students from both villages.

In order to help finance these plans, the board is looking at selling both the Lakeview property and the Victoria Street School.

In a letter to the board of education, Sir Sandford President Brian Desbiens has said the college is looking at ways to raise the necessary money to buy the Lakeview property from the board.

Tri-County Atoms protest extended period

Friday, January 19 was certainly a night full of surprises.

Minden's Tri County Atoms travelled to Beaverton for a late starting 7:15 p.m. game.

From the start, the game was in Minden's favour with the majority of play in Beaverton's zone. The boys kept the pressure on and time and again, attempted shots only to have them intercepted by a Beaverton player. However, Beaverton could not clear their zone with the interception.

With a scoreless first period, ends were changed and the puck was dropped for the second. Same results — scoreless!

As I stated last week, our boys can always be proud to step on the ice as a team, and play a good clean game of hockey. Beaverton players are coached somewhat differently than our boys. Their goalie is taught to poke and jab, players are taught how to slam an opponent into the boards and how to cross check. Needless to say, this was not a penalty-free game.

At the start of the third still scoreless, the clock was set to fifteen minutes. Coach Jim questioned this and they stated this was the way they played their games, and would not change it to a 10-minute period.

Minden agreed to play the 15 minutes but strictly under protest. Later, upon checking the game sheets, all previous games have been 10 - 10 and 10 with Beaverton this year.

Five minutes into the third, Sheamus Donnery took a pass from Nathan Stephenson and found a hollow spot to put Minden ahead 1 - 0. The boys retained their lead for the required 10-minute period. And not until 12 minutes had been played in the period, did Beaverton tie the game at 1.

Commendable efforts were made by defencemen Rob Camelon, Ben Ripley and Donald Todd, who played an excellent game and displayed some fantastic skating and defensive skills once again.

Last Saturday instead of a practise we played an exhibition game at home against Wilberforce. Not knowing what to expect, we were quietly dismayed when Wilberforce started things off one minute into the game when they snuck one past goalie Ashley Walker.

That seemed to be all that was needed. Gavin Gartshore started the action for the home team assisted by Raymond Ranson and Chuck Hopkins, followed closely by Sheamus Donnery from Adam Carpenter. Twenty seconds left in the first period Donnery did it again with a pass from Ben Ripley. That closed the first giving Minden a 3 - 1 lead.

The second period remained scoreless and the third as well — wait — 35 seconds left on the clock

Kid's Korner

by Jean Lacey

Hi Kids!

Here is another puzzle for you with a word list. Look in the diagram of letters for the words given in the list. Find them by reading up, down, forward, backward and diagonally. They are all in a straight line and do not skip letters. Circle the words in the diagram and cross it off the list.

It's as easy as that. Have fun!

Westside club is finally learning to win

After accepting 11 straight losses, Westside Jug City has finally discovered how it feels to win a game.

The team that seemed to be headed for a winless season in the Minden Men's Recreational Hockey League won two games in the last two weeks. And although Westside is firmly planted in the basement of the standings, these recent showings hold some promise of better results when the playoffs begin in February.

Westside captured its first win on January 15 at the hands of Home Hardware. And then last Monday, they proved it wasn't just a fluke as they edged Home Hardware.

The past two weeks of play in this league have been anything but typical of most of the season. On January 15, the league's powerhouse team Stamp Fuels had to struggle back from a two-goal deficit to manage a tie with the Rockcliffe Tavern. And Home Hardware dropped both its games, falling back into third place in the standings, one point behind Hartwick.

With just two games left in the regular schedule, Stamp Fuels has clinched first place and Westside has clinched last place. The other four spots are still up for grabs.

Hartwick is in second place with 15 points. Home has 14 points, and The Times and the Rockcliffe each have 12 points.

In the opening game on January 15 at the Minden arena, Hartwick outscored The Times 7-6. Brian Shaw, who continues to lead the league in scoring, accounted for three of Hartwick's goals. Jeff Howe, Kevin Hamilton and Billy Whittaker each scored one for Hartwick.

Eldon Bull scored two of The Times' goals, while singles came from Dennis McKee, Ivan Ingram, Dave Rodgers and Andy McKenzie.

The second game of the night saw the Rockliffe chalk up a two-goal over Stamp Fuels in the final frame, only to watch it evaporate. The game ended in a 6-6 tie.

Collin Newell led the scoring for the Rockcliffe with two goals. Doug Ray, John Ballantyne, Tim Vezina and Ken Casey each added one goal.

Craig Crowe and Jim Crawford each scored twice for Stamp Fuels while Greg Newell and Barry Ward added one each.

In the final game of the night, Westside surprised Home with a 7-4 win. Sid MacKiegen scored twice for the winners and singles came from Bernie Upton, Ben Manuge, Jeff Campbell, Mike Keaney and Mark Lund.

Scott Hamilton did the bulk of the scoring for Home with three goals. Andy Campbell notched the fourth.

On January 22, the play opened with a 4-1 victory for the Rockcliffe over The Times. Dave Hartwick, John Ballantyne, Ken Barry and Collin Newell each scored one for the winners. Scott Gartshore scored The Times' lone goal.

Stamp Fuels came out strong again in the second game of the night to build a 3-0 lead in the first frame and hold on to win 5-3 over Home Hardware.

Greg Newell earned another hat-trick, while Tom Haley and Craig Crowe balanced out the scoring for Stamp Fuels with one each.

Scott Hamilton scored two of Home's goals and Irwin Asbell added the third.

In a high-scoring final game, Westside outdistanced Hartwick in an 11-8 decision.

Bernie Upton racked up five goals in this win. Norm Barry and Sid MacKiegen each added two, and singles came from Kim Hamilton, Bart Hilhorst and Mark Lund.

Hartwick's attack was led by Jeff Howe, with three goals. Brian Shaw earned another two, and Kevin Hamilton, Billy Whittaker and Wade Stamp scored one each.

The Minden Juvenile Legion Monarchs have been playing well in playoff action, but costly penalties got in the way during their home game against Millbrook last Sunday. The Juveniles managed to stay within reach of the lead through the first two periods, but allowed several goals in the final frame and lost 6-2.

Atoms lose playoff opener at home

by Corinne Howell

The Minden Atom A team has had busy week with three playoff games being played.

The first game was played at home against Oakwood. During the first period Minden came out strong with two goals being scored very quickly. The first one was scored by Andrew McKelvey assisted by Curtis Fielding. The second was scored by Chris Eskelin on a pass by Jeremy Durking.

Minden continued to dominate the play but Oakwood came back in the second period to score their first goal. Minden fought back scoring their third goal when David Raback picked up a pass from Andrew McKelvey to score.

The tables turned in the third period with Oakwood scoring four goals to bring their total to five. Minden tried hard but were only to score one more goal when David Raback scored assisted by Tommy Bagshaw. Giving them four goals total.

Minden's second game was to be against Ops at home again. This time Minden was to be the victors with a 4-1 score.

Minden's first goal came within the first few minutes of play when Jeff Wray passed to Ryan Ladurantaye who shot the puck home. Both teams played hard but we were not to see any more goals until the second period.

During the second period both teams were to score, Minden being the first when Jeff Wray passed to Curtis Fielding to score.

In the third period Minden was to score two more goals, the first by Andrew McKelvey on a pass from Tommy Bagshaw, and the second by Andrew McKelvey unassisted.

Minden edges Wilberforce and Haliburton

(from page 13)

and here he comes!

Defenceman Donald Todd was on another one of his rushes. He wove his way from one end of the ice to the other and by the time the Wilberforce team caught up to the play, the goal had been scored, the game was over and Minden won 4 - 1. Beautiful goal, Don.

It seems very ironic that the Wilberforce coach asked Coach Jim if our boys always played so rough. Wilberforce accepted the only two penalties of the game — one for body contact and one for slashing. All in all both teams played well. Now we have another tournament to attend in Wilberforce February 11.

On Wednesday night we found ourselves in Haliburton for the last game of the regular schedule before playoffs.

Once again the play was centred mainly in the Haliburton end but not much connected. I am sure if our goalie Ashley Walker dropped down on the puck as often as Haliburton's goalie he would inevitably be called for delay of game.

In the first period, Minden's Sheamus Donnery was a little too quick and didn't give Haliburton's goalie a chance to drop on one of his shots. Assisted by Adam Carpenter and Donald Todd, this one found the mark to put Minden ahead 1 - 0.

In another game with a 15 minute third period, it wasn't until the 5:47 mark on the clock that Haliburton's Greg Schell scored the first goal of the season for the Haliburton team against Minden. This tied the game at one and finished the season of regular games.

Don't forget to mark the Atom's home tournament on your calendar for Saturday, February 24.

Atoms win two in playoffs

(from page 15)

Minden travelled to Bobcaygeon for their third game, and once again they came out the victors with a 5-2 score.

During the first period both teams worked hard testing the skills of both goalies. But we were to see a scoreless first period.

In the second period it was Minden that dominated the play and the team was rewarded when Jeff Wray scored from a pass from David Raback.

Minden stepped up the pace with several shots on net resulting in an unassisted goal by Andrew McKelvey.

Both teams were feeling the pressure but managed to find more steam. The time it was Bobcaygeon that netted the puck for their first goal.

Minden managed to come back with a goal from Chris Eskelin assisted by Andrew McKelvey for their third goal. Bobcaygeon went on the attack and netted their second goal.

With only minutes left of play, Minden secured the game with two more goals, the first from Tommy Bagshaw assisted by Jeff Wray and Marty Dettman. The second goal was scored by Ryan Ladurantaye assisted by Jeremy Durking and David Raback.

It was a pleasure to attend a game where the referees had a sense of humour

PROPERTY ASSESSMENT

and your 1990 Municipal and School Taxes

Regional Assessment Offices located throughout Ontario are responsible for assessing all real property for the purposes of municipal and school taxation.

Assessment Rolls are prepared and delivered to municipalities which use them to set mill rates and calculate property tax bills. The amount of property tax you will pay on your home or business in 1990 is determined by multiplying the assessed value of your property by the mill rate.

If you want to learn more about your property assessment, the Regional Assessment Office invites you to attend its Open House Session.

Open House Sessions

Open Houses are held in every municipality at convenient times and locations to provide you with the opportunity to discuss your assessment with the staff of the Regional Office.

An assessor will be pleased to explain the basis of your property assessment and is authorized to amend any inaccurate information prior to the delivery of the Assessment Roll to your municipality.

If you have any questions, but are unable to attend the Open House, please contact your Regional Assessment Office at the address or telephone number shown below.

Notice of Property Valuation

Property owners and tenants will receive a Notice of Property Valuation if information relating to their property assessment was changed during the past year, if the assessment was appealed last year, or if there has been a general reassessment in the municipality. If you receive a Notice of Property Valuation, it may reflect changes you have requested in your school support designation, in the amount of your assessed value, or other recorded information on last year's Notice.

Appeal procedure

If, after attending your local Open House, you are still dissatisfied with your assessment, you have the right to appeal it to the Assessment Review Board. This Board is responsible for determining whether the assessment under appeal is fair and equitable with the assessments of similar properties in the vicinity. The Assessment Review Board is more informal and relaxed than a regular court of law.

Appeal Deadline

The final date for appealing your assessment is March 20, 1990.

If you wish to appeal your assessment, you can use the form provided on the back of your Notice of Property Valuation, write a letter, or use a Notice of Appeal form. You need to include your property address, roll number, and the reason for the appeal. Your appeal must be filed on or before March 20, 1990.

To assist you, Notice of Appeal forms and the address of the Regional Registrar of the Assessment Review Board are available at Open Houses, your Regional Assessment Office, or your municipal office.

Schedule of Open Houses

Momentum builds as Bantams progress in playoffs

The Minden Bantam Monarchs are building a head of steam as they drive their way through the playoffs, improving with each game played.

With three games already under their belts in this five-team round-robin playoff, Minden has earned two wins and allowed one loss.

The Monarchs opened the playoff series on shaky ground on January 13 at home. They met up with Bobcaygeon and suffered a 1-0 loss.

Coach Daryl Ward said his team played a strong game, but one "flukey" goal in the first period made the difference. Bobcaygeon scored early in the period on a shot from near centre ice to take the lead. And although Minden fought hard to find the equalizer, it was not to be.

The bantams had better success in their second game, in Woodville. They put in a solid game throughout the three periods of play to take the 3-2 win.

Paul Hewitt opened the scoring in this game at the 11:56 mark of the second period, assisted by Phil Boyle. Woodville fought back with two of their own to take the lead, but Minden's Derek Janke tied it up before the end of the period, assisted by Joel Cox.

The Monarchs went into the lead to stay on a third-period goal by Minden's number 11, unassisted.

All engines were running in perfect order on January 20 when Minden hosted Oakwood and dished them up a 6-0 loss.

Paul Hewitt inflicted most of the damage in this game with three goals and an assist. Derek Janke scored one goal and assisted on another. Jay Hughes and Garwood Thomas each scored one goal and Corbie Kent picked up two assists.

The bantams were scheduled to play their fourth game of the series at home against Sunderland on January 25. However, the game had to be postponed because of problems with the ice-making equipment at the arena.

Coach Ward said Sunderland will be the toughest opponent in this series, but he is confident Minden will be able beat them. He said the team has been improving all season and is more than ready to take on any team in the league.

Minden's next game is on February 1 at 7:30 p.m. at home against Woodville. On February 6, they travel to Oakwood for a 7:30 p.m. game, and on February 8 they will be in Bobcaygeon for 9 p.m.

The Monarchs will meet up with Sunderland in Sunderland at 7 p.m. on February 10. The make-up game with Sunderland is yet to be scheduled.

If Minden succeeds in winning this round-robin series, the team will go into a best of three series against the winner of the series from the other half of the division.

Minden loses, draws then wins in playoffs

by Janet Horsley

On January 13, Minden hosted Beaverton. Both teams played well, but for some reason Minden just did not have it together, with Beaverton winning with a score of 3-1.

Jason Horsley scored Minden's only goal.

On January 20, Minden hosted Bobcaygeon where they battled out a very good game with them. Every time one team scored the other was trying their hardest to match it.

In the second period with five seconds left, Bobcaygeon pulled their goalie in the hopes they could tie the score. The score being 3-2. But they were unable to do so.

In the third period with 58 seconds left in the game, Bobcaygeon once again pulled their goalie, but were still unable to get past the Minden defence to score. Ending the game 3-2 for Minden.

Goals made by Minden were: Gary Kernohan, unassisted, Ryan White, assisted by Trever Cole, and Paul Daniels, unassisted.

You played well Minden.

On January 21 Minden travelled to Little Britain. The teams played well. Both teams seemed to be evenly matched this day. When one scored, the other scored leaving the game a tie of 2-2.

Goals made by Minden were: Billy Fountain, assisted by Gary Kernohan, and another from Billy Fountain, unassisted.

On January 22, Minden travelled once again to Ops. I don't know what the parents fed these kids for supper but they played a very good game. Everyone seemed to be where they were supposed to be. They passed well and set the puck up for shots. They seemed to score one goal after the other, by the time they were into the third period Minden was well ahead of Ops.

The referees decided not to stop the clock anymore. They ended the game with a score of 11-1 for Minden.

Nice game guys.

Goals made by Minden were: Gary Kernohan, unassisted, Ryan Whites, assisted by Trever Cole, Paul Daniels, assisted by Josh Shaw, Paul Daniels, assisted by Billy Fountain, Gary Kernohan, assisted by Jason Horsley, Jason Horsley, unassisted, Josh Shaw, assisted by Billy Fountain, Paul Daniels, Billy Fountain, assisted by Josh Shaw, Paul Daniels, Gary Kernohan, unassisted, Jason Horsley, unassisted, Billy Fountain, assisted by Jordan Barclay.

Oakwood tops Minden novices 7-0 in opener

On Saturday, Jan. 13, 1990 the OMHA novices opened a round robin playoff series. The teams involved are Oakwood, Sunderland, Woodville, Cannington and Minden.

Our first game of the playoffs was against Oakwood. Oakwood finished first in the regular schedule and we had trouble with them all year. They played another excellent game and eat us 7-0. Minden played a strong game and never quit. We will beat them next time. Saturday, January 20, 1990 we played our second game of the playoffs and Woodville was our opponent. The two teams had previously tied both games they played against each other.

Woodville jumped into a 2-0 lead by the end of the first period. Minden kept coming at Woodville and were rewarded on a pretty passing play, started by Nicholas Kulas to Danny Jordan who spotted Danny Vanderlip at the side of the net for the goal. Nice play boys. We tied the game with three minutes remaining in the game on a goal by Nicholas Kulas unassisted. Final score was 2-2.

This was a strong game by the whole team, but the coaching staff felt Wayne Kernohan was the tower of strength on defence. Keep up the strong play boys. The coaches were pleased to see the strong passing and back checking game played by the boys as they have stressed this part of the game in practice.

Good luck in Sunderland on Jan. 30, as I will have to miss the game.

HALIBURTON COUNTY SNOWMOBILE ASSOC

Lisa Carr passes test

At a recent test day hosted by the Minden Skating Club, Lisa Carr was successful in passing her Junior Competitive test.

In order to compete at Sectionals, divisionals and Canadians in the Novice, Junior and Senior events, skaters must first pass these competitive tests which include figures, elements and a free skate solo. They must also qualify for the tests at certain ages.

Lisa passed her Novice Competitive test in May, 1987 and competed two years at the Novice level at the Eastern Ontario championships, qualifying for the finals her second year.

The Junior Competitive test just passed will enable her to continue competing next fall at Sectionals which will be held in Peterborough.

Lisa is coached by Jane Symons in Minden and in the off-season by Mike Sanderson in Lindsay.

Being successful at the Junior Competitive test is quite an accomplishment. Lisa is the first Minden skater to have done this and is now looking forward to competing through this next year.

Minden skater Lisa Carr and coach Jane Symons.

Date set for annual skating meet, Strong response from area clubs

The Minden Skating Club will be hosting its third annual "Meet to Skate" competition on February 3 and 4, 1990. Again this year the response from local and distant clubs has been great.

About 160 skaters will be showing their skills during the 20-hour competition. These skaters will be travelling from 40 different clubs such as Ottawa, Mount Forest, Palmerston, Aurora, South River, Cobourg, Bala, and the Toronto Cricket, Curling and Skating Club. There will be many local and area skaters as well.

Almost every level of skating will be represented, including dance and pairs freeskating. Judges from areas such as Oshawa and Bracebridge will be coming in to keep score, as well as Canadian Figure Skating Accountants to tally the scores and record the placings.

The invitational meet is designed to raise funds for the skating club and everyone is urged to come out and watch the young stars.

HALIBURTON

457-3933

Minden figure skaters Cori Barkwell, Janene Garbutt and Kristi Barkwell took part in the Oshawa freeskating competition on January 12 and 13 and returned with fine placings in their events.

Three local skaters shine in Oshawa

It was competition time again as three Minden skaters travelled to Oshawa for their annual figure and freeskating competition on January 12 and 13.

This is a tougher competition than most invitationals because each skater must do figures and freeskate. The placings for the two events are combined to determine whether you go on to the freeskate final.

Janene Garbutt, Kristi Barkwell and Cori Barkwell each did very well in their categories. The top two in each flight moved on to finals.

In the category of Pre-Juvenile Girls: Flight 1 - Janene Garbutt - Figures - 2nd place; Freeskate - 2nd place; combined placing - 2nd place (to qualify for finals). Finals - 5th place.

Flight 4 - Kristi Barkwell - Figures - 2nd place; Freeskate - 2nd place; combined placing - 1st place (to qualify for finals). Finals - 8th place.

In the category of Juvenile Girls: Flight Two - Cori Barkwell - Figures - 4th place; Freeskate - 2nd place; combined placing - 2nd place (to qualify for finals). Finals - 2nd place.

Congratulations girls on your effort and accomplishment.

Around The County Town

by Mary Scott Call 286-1104

It has been most gratifying to hear from so many of you giving me encouragement for taking over Around The County Town column. Jeanne Sears has given me so much help and no wonder she was voted The Woman of the Year. Thank you Jeanne for all your assistance.

* * *

Bern and Doreen Berry are the proud grandparents of a baby granddaughter. They now have eight grandchildren. Congratulations to you both. Doreen, you will have to get your knitting patterns out for the 'wee' size!

* * *

The Bowron Homestead meeting that was scheduled for January 31st, has been postponed until further notice.

* * *

Had a delightful call from a reader regarding my request for recycling or ways that we can reduce the use of harmful chemicals in our homes. Her suggestion is the following recipe: All Purpose Household Cleaner: 1/2 cup of Ammonia; 1/2 cup of white vinegar; 1/4 cup of baking soda; 1/2 gallon of water. Mix well and shake before using as baking soda will settle to the bottom. She uses her old spray containers and is certainly less expensive and it works well.

* * *

Sincere sympathy is extended to the family and friends of Rizpah Elstone and Charlotte Fieldhouse.

* * *

Please be very careful walking on our snowy and icy streets. Broken bones we don't need.

* * *

The library committee will meet in the Minden library on Wednesday, January 31 at 7:30 p.m.

* * *

A beautiful "pot luck supper" at Club 35 on January 19 was well attended and enjoyed by all, followed by euchre and winners were: 50 - 50 - Jean Randell, most lone hands - May Bradbury, high lady - Eleanor Bunker, high man - Bob Lewis, and others - Olive Daniels, Harry Randell and May Bradbury.

* * *

Club 35 euchre on January 22 saw as winners of the week: 50 - 50 - George Alsop, most lone hands - Murray MacKinnon, high lady - Ellen Klok, high man - Jim Irwin and others - Eleanor Bunker, George Alsop and Doreen Bullied.

* * *

Club 35 bridge on January 23rd saw Llyle Lucas take first place, John Klok second and Ellen Klok third. The next bridge will be held January 30th at 1 p.m. with everyone welcome.

* * *

The following are the most recent winners in the Lions Club Hockey Pool -Anita Beaver, Murray Cooper, Dwight Dettman, Joyce Hunter, Al Mayo, Bruce O'Brien and John Thomas.

* * *

Winners at St. Paul's card party Thursday included Margaret Green and Jerry Schmidt with the highs, Marg McAfee and Marian Ingram lows and most lone hand Gladys Wruth.

* * *

Women's Institute meeting held Jan. 24; 20 members attend

The January meeting of Minden Women's Institute held on the 24th was a week late due to renovations at the Common Room. Mrs. Sears opened the meeting with a verse and welcomed one guest. The usual business went on and roll call was answered by 20 members and 1 guest and there was a special collection for the Card Fund, and Pennies for Friendship were also taken.

Mrs. Moore's Card Report had 16 cards sent since last meeting. We had $16.08 from our birthday box. The letter from F.W.I.O. President Peggy Knapp was read. Our District Director Mrs. Lyman Cox reported very fully on the Executive Meeting, District Annual is May 9 with hostess Branch, Powles Corners.

The Victoria East District is sending a memorial donation to Erland Lee in memory of our deceased member Christine Gilles, well known to many of us.

Other dates and important details were given by Mrs. Cox, Mrs. Ern Hewitt Convenor of Current Events gave her paper on 1989, bringing back memories of the past year.

Readings were given by Maud Coulter, Mary Wilson and the president. The meeting adjourned with the next meeting being February 21st at 2 at the Common Room. Following there was a Spelling Bee with Jean Cox in charge and May Cox knew all the correct ways and spelled us all down. A delicious lunch and cup of tea were enjoyed by all and chat with other members.

Jeanne Sears, P.R.O.

MNR to interview local anglers

Anglers on several lakes within the Minden District can expect to be interviewed this winter.

In order to obtain valuable information about local fisheries, the Ministry of Natural Resources is carrying out an intensive creel survey on Halls, Boshkung and Mountain Lakes. Less intensive surveys are also being carried out on Crystal, Kushog, Kashagawigamog, Stormy, Moose, Eagle, Haliburton and Percy Lakes.

Anglers will be asked the time they started fishing, how many fish they have caught, and how many they have harvested. This information can then be used to assess how much angling pressure is occurring on these lakes and whether current harvest levels can be sustained. As well, any fish harvested will be examined for the presence of fin clips and measurements taken. This will enable ministry biologists to determine how well native populations are maintaining themselves and how successful fish stocking has been in several of the lakes.

Voluntary Creel Diaries are available at the district Office or from the Creel surveyors. Anglers are encouraged to record all of their fishing trips in these diaries as the information is invaluable to fisheries managers. Anglers who return their diary to the District Office receive an Angler Co-operator Crest and a new diary.

In addition, anglers are reminded that ice conditions are often unstable and can change within a few days. Stay away from areas of flowing water such as inlet streams and narrows between lakes. Talk to local anglers, marinas, bait shops, etc. before venturing onto unfamiliar lakes.

Finally, please ensure that all material taken in to angle is taken out. Garbage left behind gives all anglers a bad name.

Have a safe and enjoyable fishing trip.

Program will ready 15 for workforce

New Canadian Job Strategy funding of $171,167 will allow an additional 15 Haliburton area people to participate in a proven training project.

"This Job Entry Project boasts a 75 per cent success rate among the severely employment disadvantaged," said Bill Scott, M.P. (Victoria-Haliburton), who announced the project on behalf of Barbara McDougall, Minister of Employment and Immigration.

"It will provide these participants, many of whom are on social assistance, with training for clerical and sales duties, two areas of employment that are in demand in the mixed labour market of this region."

The funding increase will give the sponsor, Sir Sandford Fleming College, a 20-week extension in order to accommodate 15 additional persons.

Individualized training provides a mix of academic upgrading, life skills and occupational skills courses. Concurrent with the training program, participants will be offered five weeks of on-the-job experience with training-place hosts who are prepared to hire the graduates.

Participants will receive training in office skills, use of computerized cash registers, telephone etiquette, and an understanding of inventory and purchase order procedures.

"The local labour market can accommodate people with these skills," said Scott. "Graduates of this program are working in such diverse areas as municipal offices, banks, retail stores, and warehouses."

The Severely Employment-Disadvantaged option of the Job Entry program assists people facing significant barriers to finding and maintaining employment. It provides to finding and maintaining employment. It provides employment preparation and life skills guidance to help them become ready for work. Participants may be eligible for financial support while receiving training and on-the-job experience.

Canada is tops in oil-spill technology

Report From Ottawa

by Bill Scott, M.P.

Canada is among the world leaders in oil-spill clean-up. However, such expertise is borne of bitter experience.

Nearly 20 years ago, the fully-laden Arrow oil tanker was plying the waters off Nova Scotia's northeast coast when it ran aground. In the days that followed, millions of litres of black crude oil fouled the pristine beaches and coves of Chedabucto Bay, killing marine wildlife and threatening the area's rich inshore fishery.

Following the disastrous Chedabucto spill, which took months and millions of dollars to handle, federal authorities decided it was time to develop specialized expertise and technology in the field of marine spills.

Further, with the exploitation of Arctic oil and gas reserves imminent, Ottawa also resolved to bring Canada into the vanguard of oil spill clean-ups and recovery in cold climates.

Beginning in the early 1970s, researchers from a wide array of disciplines began intensive studies into the possible effects of oil and gas exploration on the ecology of Canada's Arctic and marine ecosystems. From that grew an organization called the Environmental Emergencies Technology Division (EETD) which, under the auspices of Environment Canada and the Arctic and Marine Oilspill Program, was directed to develop and test new as well as commercially available technology designed to mitigate the effects of marine oil spills.

Today, EETD is a world leader. It has developed state-of-the-art expertise in such areas as remote sensing, clean-up technology and predicting the fate and long-range effects of marine and Arctic oil spills.

Such skill is absolutely necessary when dealing with spills in Canadian waters, mainly because our marine environment is conspicuously and uniformly harsh. Off the east coast, punishing storms present one set of clean-up variables; whereas in northern climes, distance and Arctic conditions combine to present an entirely different set of problems to solve.

For example, when oil is spilled in cold water it tends to form a foamy "mousse" that, by virtue of its consistency cannot be pumped by ordinary means. At EETD, a "demoussifier" has been developed that changes oil mousse back into water and pumpable oil.

Other techniques developed through the Arctic and Marine Oilspill Program include air-droppable and laser oil slick igniters, an assortment of cold-limate oil skimmers and air-transportable kilns and pit incinerators.

At the same time as it develops ever more ingenious ways of handling oil spill disasters, EETD expends tremendous effort at transferring its expertise to the relevant technological and response communities. To that end, EETD holds workshops, seminars and training programs, as well as producing prodigious numbers of technical papers, manuals and reference materials.

So far no ultimate weapon against oil spills has been developed; but years of hard work have enabled skilled Canadians to at least reduce the horrendous damage caused when mishaps at sea occur.

Dorset Acid Rain Report

The following report on precipitation events was recorded at the Ministry of Environment acid rain testing station in Dorset and compiled by Environment Canada.

This report covers the period of January 14 to January 17.

January 14 - 1 cm snow, 4.4 pH, from Lake Superior, Michigan and southern Ontario.

January 16 - 4 mm mixed rain and snow, 4.2 pH, from Indiana, Ohio and southern Ontario.

January 17 - 19 mm rain, 4.2 pH, from Tennessee, Kentucky, Ohio and southern Ontario.

Environmental damage is usually observed in sensitive areas regularly receiving precipitation with pH less than 4.7. Readings of 4.0 pH or less are considered dangerous. The lower the reading, the more acidic the precipitation.

Please clearly mark the envelope "Tender Enclosed"

The lowest or any tender may not necessarily be accepted.

CORPORATION OF THE TOWNSHIPS OF ANSON, HINDON AND MINDEN

NOTICE

IN THE MATTER OF Section 34 (12) of the Planning Act, S.O. 1983
and
IN THE MATTER OF an application by Roy Windover to amend the Zoning by-law of the Township of Anson, Hindon and Minden to change the zone symbols from Residential First Density (R-1) to Open Space (OS) zone to permit the use of the land for the purpose of Open Space on Part of Lot 3, Concession A, in the Township of Anson on Block 75 and Block 76.

NOTICE is hereby given that Council will hold a public meeting in the Municipal Council Chambers on Tuesday, February 6, 1990 at 7:30 p.m. to consider an amendment to the Zoning by-law 86-26 which would change the zoning of the lands shown in heavy outline on the attached plan from Residential First Density (R-1) to Open Space (OS) to recognize the public ownership of the lands.

AND FURTHER TAKE NOTICE that before passing the said Zoning By-law amendment, Council shall then and there hear any person who attends the said meeting to make representation in respect of the proposed amendment.

FURTHER INFORMATION, if required, may be obtained from the Municipal Offices during regular office hours.

DATED at Minden this 16th day of January, 1990.

Mary Mysyk,
Clerk-Treasurer,

CARD OF THANKS

I wish to send my sincere thanks to all who came to visit, phoned, sent cards and flowers to me during my recent stay in Civic Hospital. A special thanks to family members.

Lynn Cox

CARD OF THANKS

There are no words that can express enough meaning to show my appreciation and thanks for all the things my friends, neighbours and relatives have did for me, in the loss of a dear husband, father and grandfather. For the lovely cards, gifts of money, flowers, donations to the Cancer Society, trays of food, phone calls and prayers. Also many thanks to the Haliburton Legion Branch 129 and Minden Legion Branch 636 for the lovely service. Many thanks to Dr. Abrahamse and the V.O.N. and Karen Vick, Dr. Jaczkowski and staff at Peterborough 327 Charlotte St. Clinic. Also the Dr. & staff in the Intensive Care at Ross Memorial Hospital, Lindsay. Special thanks to Rev. Moll for his comforting words and my son-in-law for his wit and comforting words. Also Gordon Monk Funeral Home. Thank you and may God be with you all.

Helen Skelding & family

We would like to thank all those persons involved in the "Stag" on Saturday night, January 20 at the Firefighters' Hall. We would also like to take this opportunity to thank all the ladies who participated in the shower on Sunday afternoon, January 21 at the C.E. Building in Carnarvon. The organizers of these two events did a tremendous job and we are really thankful for the money and all the lovely gifts we received.
Thank you,

Greg and Michele

IN MEMORIAM

SUTTON: In loving memory of our dear granddaughter Rhea Alexis, who left us January 25, 1981.

She was only a little white rose,
A sweet little flower from birth,
God took her home to heaven
Before she was soiled on earth.

Dearly loved and sadly missed by Grannie and Papa Ciolko, Uncle Brian, Auntie Beverely, cousins Shannon & Brittany.

SUTTON: In loving memory of our darling daughter Rhea Alexis who God called home on January 25, 1981.

Though her smile is gone forever,
And her hand we cannot touch,
Still we have so many memories,
Of the one we loved so much.
Her memory is our keepsake,
With which we'll never part;
God has her in His Keeping,
We have her in our heart.

Always loved and never forgotten by Mom, Dad, sisters Roberta and Cira and brothers Caleh and Remington.

WATSON: In loving memory of Ambrose B. who passed away January 27, 1989.

Those whom we love go out of sight,
But never out of mind;
They are cherished in the hearts
Of those they leave behind.
Loving and kind in all his ways,
Upright and just in all his days;
Sincere and true in heart and mind,
Beautiful memories he left behind.

Sadly missed by his wife Clara, children Murray and Marg, Leo & Autumn, Beulah & Arden, Cyril & Martha, Bob, Jean & Allan, Phil & Karen, Boyd & Pat & Charlene & Bruce and the grandchildren and great-grandchildren.

LAND WANTED ANY LOCATION

Vacant land wanted: waterfront parcels, severed lots, plans of subdivision. Also old farmland and bush 10 acres or greater.

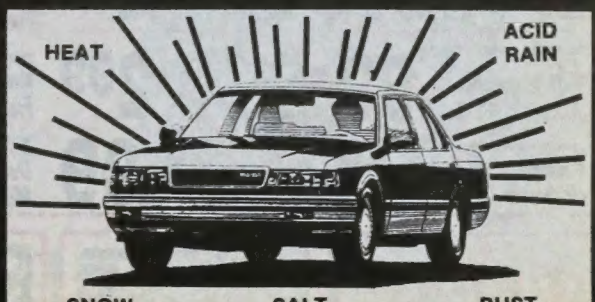
CRYSTAL-GLO™
ACRYLIC CAR POLISH
Protects your vehicle from the elements!



CONTAINS NO ABRASIVES NON YELLOWING PEEL PROOF AND CRYSTAL CLEAR

CRYSTAL-GLO™ has ultra-violet inhibitors to protect your automobile finish from fading. It makes waxes, teflon and silicone polishes obsolete.

This polymer **acrylic** "Glass" finish is applied as a liquid (wipe-on, wipe-off) to **brand new & used cars** to simultaneously remove tar stains, oxidized paint, tree sap, grime, even tarnish etc., revitalizes and restores dull finishes, Super Smooth. It deposits a plastic film that fuses to the surface and fills the pores to give your car a hard, high lustre, mirror-like finish. **CRYSTAL-GLO hardens clear coats and enhances the performance. On black paint it leaves NO SWIRLS, STREAKS, OR MARKS. Acrylic** sticks to anything ... (excellent for windshields) but nothing sticks to **ACRYLIC!** Not tree sap, not grime or dirt, not even bird dropping, not even paint or acid rain. **Nothing can damage your paint not even the tremendous heat of a burning cigarette.** Excellent for fiberglass, chrome, mirrors, windows, fiberglass boats, brass, silver, gold, etc...

CRYSTAL-GLO
LEATHER/VINYL CLEANER & PRESERVER WITH "NEATSFOOT OIL"
Cleans, protects, adds durable lasting lustre to leather, vinyl, plastics, naugahyde, rubber, formica, wood.
NON GREASY, NON OILY

ACRYLIC EXTERIOR SHAMPOO
CLEANS, REJUVENATES, SHINES & PROLONGS POLYMERE PROTECTION.

THEY ARE THE BEST
WE CHALLENGE YOU TO TRY THESE EXTRAORDINARY FAST SELLING WONDERS.
REMARKABLE POTENTIAL CALL US TODAY!
